FACTS ABOUT BOZEMAN.

Chief among Bozeman's resources is its rich inheritance in the soil of the Gallatin valley. It
lies at the head of this superb valley, which is 30 to 40 miles in extent. One-half of the wheat,
oats, barley and vegetables raised in Montana, is produced in this valley. It has the best of all
productive lands against outside competition in the freight tariff. Owing to the plentiful water, the
crops of the valley never fail to yield enormously. Its total foot up annually 150,000,000 pounds of
oats, now selling at \$1.45 in Bozeman, 25,000,000 pounds of wheat, and 25,000,000 pounds of
barley. The mills manufacture 18,000,000 pounds of flour. In addition are the small products in
raising which fortunes are being made. On the farm of R. P. Menefee in the year 1856 there was
raised an average of 65 bushels of oats per acre on 70 acres. In 1877 on the same number of acres
the average was 65 bushels; and in 1877, 65 bushels. In 1879 the average on 110 acres was 82 bushels;
in 1880 on 100 acres, 48 bushels; in 1881, 77 bushels; in 1882, on 114 acres, 85 bushels, and in 1883, on
150 acres, 54 bushels to the acre. In 1884, on 89 acres, the average was 40 bushels, and in 1885, on
70 acres, 69 bushels. That is an unbroken record of big crops for 10 years, and Mr. Menefee's
neighbors have similar stories to tell. In fact, 110 bushels of oats have been raised to the acre in
this valley, and from 45 to 65 bushels of wheat.

Situated in this rich agricultural country no fear is felt that Bozeman will cease to grow in
population and wealth. On the outskirts of this marvelous valley are many valuable mines of cop-
per and silver. Many mineral locations are being developed and now promise rich rewards to
those who own them.

Coal mines within three miles of the city supply the city with coal.
An electric capital is being built in and about Bozeman and the next year it is fair to see
Bozeman the scene of many enterprises which will distribute large sums of money. These are now
arriving for the electric railway, and in the early spring an oat meal mill will be built. Just west of
Bozeman a few miles, at the new town of Manhattan, in Ring works, the largest in the United States,
are being built. Bozeman has enough new enterprises under way and enough industries in sight
to insure greater prosperity within the next two years than has ever been witnessed in any five
years of its existence.

Bozeman is fast becoming noted as a health resort. The Ferris Hot Springs are only seven
miles from the city and can soon be reached by electric cars. The water from these springs has
been tested by hundreds of invalids in the past few years with gratifying results. They will now be
reached to the front by Mr. Ferris who lately purchased them from Mr. Jerry Mathews and in a few
years this resort, which is already widely and favorably known throughout the east, will rival the
most noted springs in the world.

In the race for pre-eminence, its location, beauty of surroundings, natural wealth and per-
manence of resources, all point to Bozeman as a winner. As the last decade as shown Denver grew
into the Queen City of Colorado, so it is not to be questioned that the closing decade of this century
will see Bozeman outstripping its rivals and become known throughout the world as the Garden
City of the Rocky Mountains.

If you want a healthy, busy, ambitious, enterprising city for a home, one that is unsurpassed
for beauty of surroundings, come to Bozeman. We have a first-class academy, splendid public
schools, nice churches and an intelligent community. The field is rich for investments and those
who delay catching on now while a small sum of money will go a long way are the losers.

Among the Living.

Bozeman, the coming city of Montana, the
most prosperous state in the Northwest, is now
recognized as most surely to be the future capi-
tal, and this is the city for a safe investment.
Real estate is now cheaper than in any city of its
size and advantage. Money now invested here
is sure to bring quick returns and large profits.

The cheapest inside properties are now held by
the Minneapolis Syndicate, and R. L. Finlay, the
agent who is located in Bozeman, is rapidly sell-
ing blocks and lots to Bozeman citizens, who are
taking advantage of the low prices of property
on which to build homes before prices advance.

Syndicates are forming and endeavoring to pur-
chase the additions of Capitol Hill, Park and
Spring Brook, knowing they can advance prices
50 per cent and sell the property rapidly. The
limes addition has already been bought of the
Minneapolis Syndicate by a Butte and Bozeman
Syndicate, and if you look over the Capitol Hill,
Park and Spring Brook additions, get prices
and compare them with prices of lots in other
additions you will not care to look further. The
above additions are in the finest residential portion
of the city and are within five blocks of the post
office, two blocks of the Court house, and eight
blocks of the new Bozeman hotel. Blocks of 24
lots are being sold in Capitol Hill Addition for
\$1.00, and a 6 in Park and Spring Brook Addi-
tion for \$1.25 per lot. Our terms are the
most liberal offered and will suit any one. For
further information call on or write to Mr. R. L.
Finlay, who represents these additions exclu-
sively. Office in Bozeman City Hall, opposite the
Bozeman hotel.

Butte addition, six blocks from the postoffice
Lots range from \$10.00 to \$100.00, each. Easy
terms. These with the additions mentioned in
Mr. Finlay's half of this space, bound the busi-
ness portion of the city on the North, West and
South. We represent it all. Besides this we
have a business, 2-story, brick block, with base-
ment, renting for \$150.00 a month, which we can
sell for \$35,000.00. Also a 2-story, brick block,
with basement, renting for \$27.50, which we can
sell for \$17,000.00, both centrally located. We
have other investments all over the city equally
as good. Ranches with a record for producing,
unsurpassed. Close to town.

Coal mines, eight miles from Bozeman, showing
a splendid vein of first-class coaling coal. A
health resort, Ferris Hot Springs, in 6 miles of
Bozeman. A paradise for a man with a few
dollars.

Why do we advertise? Because you are over-
looking the safest and surest bet of your lives.
Prices are steadily advancing. All we ask is a
candid investigation.

R. R. Finlay, Bozeman, Mont.

Still in the Ring.

With the Capital, the Agricultural College and
Experiment Station in sight. What is the mat-
ter with these prices? Limes addition. Four
blocks from the depot and five blocks from the
new hotel. Lots range from \$35.00 to \$100.00
each. On easy terms.

Butte addition, six blocks from the postoffice

THE BOZEMAN

The most modern and complete hotel in Montana was opened to the public March 2, 1891.
Steam heat, electric light, running water and tubs unsupplied. The tenor and parlors and
bathrooms in the hotel are also of the highest order.
WAKEFIELD & CALLAHAN.

EXCELS DR. KOCH'S LYMPH.

A FEW PLAIN FACTS

GALLATIN VALLEY produces more grain than all the
rest of Montana. 500,000 bushels of oats, 200,000 bushels
of barley, and 300,000 bushels of wheat, a grand total of
1,000,000 bushels, is about an average crop for the Gallatin
Valley. Nelson, Story & Co.'s mill grinds all the wheat grown
in the Gallatin Valley. Grinds more wheat than all the other
mills combined in the state of Montana. This mill grinds steady-
ly day and night. Has a mill race three miles in length to con-
duct the water to the wheel. Has one immense engine of 125
horse-power. The mill and store houses cost \$100,000. It is the
most thoroughly equipped plant in the Northwest, being Full
Roller process and of the latest improved machinery. The flour
from this mill is shipped all over Montana and into the Dakotas.
Every sack is guaranteed to be first-class. Only the best millers
are employed. Try a sack of the flour made by this mill and be
convinced.

NELSON, STORY & CO.,

BOZEMAN, MONTANA.

COMING! STOP IT! NOTHING CAN!

BUTTE ADDITION IS BOUND TO PROSPER

Cause Why: Central Avenue the Principal Residence Street of the
City passes through it. Street cars will be running on Central Ave-
nue very soon. Fine residences built right up to it. Commands finest
view of the City of Bozeman. Bozeman produced last year one-half of
all the grain raised in Montana. Enormous quantities of the best soft
coal are taken from her mines every day. For particulars call and see
